

WRITING TASK 2

You should spend about 40 minutes on this task.

Write about the following topic:

Some people think that universities should provide graduates with the knowledge and skills needed in the workplace. Others think that the true function of a university should be to give access to knowledge for its own sake, regardless of whether the course is useful to an employer.

What, in your opinion, should be the main function of a university?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Write at least 250 words.
